Date: 22nd December 2017

Contract Agreements used by various entities within the Ministry of Health

Reference is being made to all the Contract Agreements awarded by CPSU and which can be utilised by any authorised entity within the Ministry of Health.

The Contracting Authority is bringing to the attention of the Awarded Contractors that such Contracts can be utilised by any entity falling under the Department of Health, following written notification by CPSU.

Given that orders and payments may be undertaken directly by these respective healthcare entities, it is important that the awarded contract value is in no way exceeded without the written prior authorisation by CPSU.

In this regards, the Economical Operator is being held accountable to inform CPSU, once the thresholds of **75%** and **100%**, of the total contract value, are reached.

No payment will be made for supplies, services or works should the threshold of 100% be exceeded without prior written authorisation by CPSU.

Effective as from 1st January 2018.

Ing. Karl Farrugia, CEO

Central Procurement and Supplies Unit
