

GESTATIONAL AGE RELATED INDICATORS

Definition: Number of live births and fetal deaths at each completed week of gestation (starting from 22 weeks) expressed as a proportion of all live and stillbirths for singletons and multiples

Table 1: Distribution of Gestational Age for Total births

Year	Total Births	Number of total births - Gestational Age in weeks						Percentage of total births by Gestational Age in weeks				
		Extremely preterm <27 wks	Very preterm 28-31 wks	Moderate preterm 32-36 wks	Term babies 37-41 wks	Post term babies >=42 wks	Not stated	Extremely preterm 22-27 wks	Very preterm 28-31 wks	Moderate preterm 32-36 wks	Term babies 37-41 wks	Post term babies >=42 wks
2000	4377	18	16	236	4018	87	2	0.4	0.4	5.4	91.8	2.0
