

## **Training for Brief Intervention for Tobacco Cessation**

As part of its remit in tobacco control, the Health Promotion and Disease Prevention Directorate is providing training to health care professionals in delivering brief smoking cessation interventions. Health professionals are being equipped with an evidence based brief intervention framework which aims to encourage and support patients/clients to quit smoking within the health professionals' daily practice. A 3 hour training session will be provided free of charge on the following dates at Mater Dei Hospital:

Thursday 19<sup>th</sup> August between 9am to 12 noon

Monday 23<sup>rd</sup> August between 9am and 12 noon

Places are limited. Please apply by sending your name, email and profession to [health.pro@gov.mt](mailto:health.pro@gov.mt). For further details, please call on 2326 6000.
