

Training in brief interventions for smoking cessation at Mater Dei Hospital

By now, we know that tobacco kills more than half of those who regularly use it.

(World Health Organisation, 2014)

As part of its remit in tobacco control, the Health Promotion and Disease Prevention Directorate will be providing training to health care professionals in delivering brief smoking cessation interventions. Health professionals will be equipped with an evidence based brief intervention framework which aims to encourage and support patients/clients to quit smoking within the health professionals' daily practice.

A 3 hour training session will be provided repeatedly free of charge on the following dates at Mater Dei Hospital:

18th September (9.00am. - 12.00pm) – Meeting Room 3, Medical School

19th October (9.00am. - 12.00pm) – Conference Room, Medical School

23rd November (9.00am. - 12.00pm) – Conference Room, Medical School

Certificates of attendance and refreshments will be provided.

To register please fill in the below application form, indicating your first and second preference and send it to health.pro@gov.mt Registration is on a first come, first served basis. Further sessions will be provided in the future.
