Medical Officers  
Pharmacists  
Nurses

### **Re: Replacement of Fenofibrate 300mg capsules with Fenofibrate 200mg micronised capsules (Fulcro®)**

Kindly note that Fenofibrate 300mg (non-micronised) capsules will no longer be available within the Government Health Services. They will be replaced by Fenofibrate 200mg micronised capsules (Fulcro®).

The 200mg micronised formulation has improved bioavailability compared to the 300mg non-micronised capsules. Patients currently taking one 300mg capsule can be changed to the 200mg micronised dosage form and **NO** dose adjustments are required.

The 300mg non-micronised capsules are therapeutically equivalent to the 200mg micronised capsules.

For your attention please,

Dr. R. Busuttil  
Director General (Health)
