1 October 2013

Attention All: Consultants
Medical Officers
Pharmacists
Pharmacy Technicians
Nurses**Re: Deletion of Trimipramine 10mg, 25mg and 50mg Tablets**

It is being brought to your attention that after consultation with the Department of Psychiatry, trimipramine 10mg, 25mg and 50mg tablets will be deleted from the Government Formulary List.

The Department of Psychiatry advises that patients on trimipramine should be gradually tailed off and switched over to other alternatives available on the Government Formulary List. For the phasing out period current stocks of trimipramine 25mg tablets are estimated to suffice for the next 2 months, while stock of trimipramine 50mg tablets expected by the end of September is estimated to suffice for 4 months.

For your attention, please

Dr. Natasha Azzopardi Muscat
Chief Medical Officer
