**Re: Betamethasone valerate 0.025% ointment in 100g tubes and  
Betamethasone and salicylic acid 0.05% + 3% ointment in 100g tubes**

Kindly note that the new stock of the above mentioned ointments within the National Health Scheme is now available in 100g tubes. Therefore, only 1 tube of 100g should be dispensed instead of three 30g tubes of ointment.

Your cooperation is highly solicited to prevent depletion of stocks of these items.

For your attention, please.

Dr. Natasha Azzopardi Muscat  
Chief Medical Officer
