Nurses

**RE: Morphine sulphate 10mg/ml injections**

Please be informed that in addition to the current stock of morphine sulphate 10mg/ml injections with Sage No. QR007 and licensed for use in children (currently Mercury Pharma), a new morphine sulphate 10mg/ml injection licensed **ONLY** for adults has been procured.

Morphine sulphate 10mg/ml injection licensed for adults only (currently Wockhardt) has Sage No. QR007A and is not to be administered to children.

Measures need to be taken for the two morphine products to be kept segregated and clearly marked.

Dr. Denis Vella Baldacchino  
A/Director General Healthcare Services
