Re: Sugammadex 100mg/mL Injections

It is being brought to your attention that sugammadex 100mg/mL solution for injection is now available on the Government Formulary List for in-patient use.

Sugammadex injections are protocol regulated by protocol 179 (Annex I) and can be prescribed by Consultant Anaesthetists, when prompt reversal of neuromuscular blockade following the use of vecuronium or rocuronium is required, in patients in emergency situations who cannot be intubated or ventilated.

For your attention please.

Dr. Denis Vella Baldacchino
Chief Medical Officer

Sugammadex 100mg/mL Injections

Prescriber Criteria: Consultant Anaesthetist

In-patient use:

For use where prompt reversal of neuromuscular blockade following the use of vecuronium or rocuronium is required, in patients in emergency situations who cannot be intubated or ventilated.
