

STOP FGM

If you love your child educate her

If you love your child don't hurt her

FGM harms a girl's body permanently

Mothers have the duty to protect their daughter/s from FGM

Mothers should not feel pressured to perform FGM to their daughter/s

FGM is not a religious requirement

Good mothers build a good relationship with their daughters; they discuss important moral issues without using painful and harmful procedures which ruin their daughter's health and sexual life.

A good loving husband does not expect his wife to have gone through FGM

A good father prevents his daughter/s from becoming victim/s of FGM

Don't let it happen to your daughter
