Procedure for recognition of qualifications and subsequent registration for the specific professions of Title III, Chapter III - EEA and Swiss nationals and residents of these countries**Step 1: Obtaining information on how to apply for recognition and registration**

Application is requested from the office of the relevant council, by e-mail, by telephone, or downloaded from the council's website.

Application forms are on the appropriate websites, accompanied by an information sheet listing the documents to be attached and registration guidelines.

Step 2: Submitting an application

The applicant submits an application for recognition of qualifications and then registration with the relevant Council. This is received by the Registrar. The Registrar checks the application for any missing documents or other documents which might be incorrect. The Registrar immediately informs the applicant of such. When application is received and is considered valid, the applicant is given an acknowledgement. The applicant has the right to receive a decision on his application within three months from the receipt of a valid application. Should the applicant be requested to submit further documents, the three months will apply from the date of receipt of any document requested. If any document is incorrect the Council asks the relevant competent authority to issue a correct document. Should this document take long to be received, the Council must inform the applicant before the lapse of the three month deadline.

To be considered valid, an application has to include:

1. A completed, signed and dated application form (Appendix 1), including payment, if applicable.
2. Proof of identity (passport or identity card). (If applicable, a certified copy of the marriage certificate.)
3. Proof of nationality and residency (if applicable). This must be a certified copy of the applicant's passport.
4. A certified true copy of the original professional qualifications
5. If necessary, certificate of acquired rights and/or of conformity..
6. Certificate of current professional status (CGS/CCPS, not older than three months), and if applicable, a certified copy of the licence to practise.
 - An original copy of the police conduct, issued within three months.
 - One recent passport photograph certified by an appropriate official for issuing the professional card.

If any document or certification provided is not in English, the applicant is required to provide a certified translation into English. The translation must be carried out by a professionally registered and authorised translator in an EU member state. The translator must provide his/her name and business address and certify in English that they are authorised to translate from the particular foreign language into English and

that the translation produced is true and accurate. This certification must be on the same page as the translation or be attached to the translation.

Step 3: Assessment of the Application by the Council

The Registrar, in the first meeting after the receipt of a valid and complete application, presents the application to the Council or sub-committee for analysis, discussion and decision.

The Council has to decide whether to use one of three methods:

Directive 2005/36 (Free establishment)

- A. Title III, Chapter III (specific professions, automatic recognition)
- B. or Chapter I (professions of the general system, case by case approach), in that case the applicant is asked to provide a detailed transcript of theoretical and practical training in hours (diploma supplement)
- C. or national legislation to apply for such an application.

Step 4: Decision by the Council

A:

- If the Council sees that the applicant holds a qualification listed in the relevant Annex of Directive 2005/36/EEC and if the diploma issued after a training or education that started after the date of accession of the home Member State, and if the diploma is still valid (CGS/CCPS), then automatic recognition is granted, if not recognition is refused.
- If the Council sees that the applicant holds a qualification listed in the relevant Annex of Directive 2005/36/EEC and if the diploma issued after a training or education that started before the date of accession of the home Member State, a certificate of acquired rights article 23 (1), or certificate of conformity of article 23 (6), and if the diploma is still valid (CGS/CCPS), then automatic recognition is granted, if not recognition is refused.
- If the professional title in the diploma certificate presented by the applicant differs from that listed in the relevant Annex, a certificate according to article 23 (6) is necessary (change of professional title) and if the diploma is issued after a training or education that started before the date of accession of the home Member State, a certificate of acquired rights article 23 (1), or certificate of conformity of article 23 (6), and if the diploma is still valid (CGS/CCPS), then automatic recognition is granted, if not recognition is refused.
- If none of the above applies, the system of Chapter I will be applied.

B:

- The Council/sub-committee evaluates the detailed transcript of the training of the applicant vis-à-vis comparability with minimum training requirements accepted by the Council. If the training is comparable to the Maltese requirements, the qualifications of the applicant are recognized and registration is granted.
- If the Council deems that the relevant training/education shows substantial differences or is one or more years shorter, it has to evaluate whether the professional experience compensates for this difference. If this is the case, the Council will recognize the qualifications and grant registration.

- If the professional experience does not compensate for the lack of training/education followed by the applicant's training, he/she is offered a choice between an adaptation period or aptitude test prescribed by the Council, unless the Council decides to derogate from this prerogative of the applicant. The Council will decide how and where it will be organized. Upon successful completion of this procedure the Council will recognize the qualifications and register the applicant. If the completion is not successful, the applicant will be advised to get education, or he/she will be refused.

C:

- In case the cases mentioned in A and B are not applicable, then national legislation will be applicable.

Step 5: Informing the applicant of the decision

The applicant has to be informed in writing by registered mail of the decision of the Council and his/her right to appeal in case of his/her qualifications not being recognized. In the case of refusal, the Council has to inform the applicant of the reasons for this refusal. The applicant has the right to appeal within 20 calendar days from the letter informing the applicant of the decision of the Council is received.

Step 6: Registration and licensing

When the applicant is granted recognition of his / her qualifications, the Council registers the applicant in the relevant Register and recommends him / her for the issue of a licence to practice by the President of Malta. Upon registration and licencing, he / she can practice his / her profession in Malta.
